I'm very surprised that you can use the syntax  
[Forms]![rptEmployee]![StartDate] even with a report.

For the forms (and reports?), take a look at the previous threads in this forum; as this question has been answered many times in the past. In particular, take attention to the InputParameters property. You can search with Google:

<http://groups.google.ca/group/microsoft.public.access.adp.sqlserver/search?q=InputParameters&start=0&score>

This is my stored procedure code. However without the syntax [Form].. it is

[quoted text clipped – 16 lines]

≡  
[Forms]![rptEmployee]![EmployeeKey]
