Thanks Sylvan for helping me out twice today! But, yea, I am using the adp project with no books and that even though odd did work. I don't know why, it just wouldn't work with record sets.

–Misty

I'm very surprised that you can use the syntax  
[Forms]![rptEmployee]![StartDate] even with a report.

[quoted text clipped – 11 lines]

=  
[Forms]![rptEmployee]![EmployeeKey])
