The tables are linked tables from an oracle database and there were no other error messages or number. Just the invalid operation error message.

Here is the code I was using, the qry\_BB\_LOC\_1 is where I get the error message

```
CurrentDb.QueryDefs("qry_AP_RESOURCE_SCENARIO").SQL = _
" SELECT DISTINCT A.* FROM " & userID & "_AIRPORT_RESOURCE AS A INNER JOIN " &
userID & "_SCENARIO_RULE AS B" & _
" ON B.RULE_ID = A.RULE_ID WHERE B.SCENARIO_ID = " & cmbBIScn & ";"
```

```
CurrentDb.QueryDefs("qry_BAGGAGE_BELT").SQL = _
"SELECT DISTINCT BB.AIRPORT_RESOURCE_KEY, AIRPORT_RESOURCE_NAME,
AIRPORT_RESOURCE_CODE, GRAPHICS_SEQ_NO, SECTOR_CODE_STRING, " & _
" CAPACITY, CLAIM, AIRPORT_CODE, DESCRIPTION, AR.IS_INACTIVE, AR.RULE_ID FROM "
& _
userID & "_BAGGAGE_BELT AS BB, qry_AP_RESOURCE_SCENARIO AS AR WHERE " & _
" AR.AIRPORT_RESOURCE_KEY = BB.AIRPORT_RESOURCE_KEY;"
```

```
CurrentDb.QueryDefs("qry_BELT_IN_AREA_VIEW").SQL = _
" SELECT DISTINCT B.* FROM " & userID & "_BELTS_IN_AREA_RULE_VIEW AS B INNER JOIN
" & userID & "_SCENARIO_RULE AS C" & _
" ON C.RULE_ID = B.RULE_ID WHERE C.SCENARIO_ID = " & cmbBIScn & ";"
```

```
CurrentDb.QueryDefs("qry_BAREA_RULE_VIEW").SQL = _
" SELECT DISTINCT D.CONSIST AS ACONSIST, D.INCLUDES AS AINCLUDES FROM " & userID
& "_BAREA_RULE_VIEW AS D INNER JOIN " & userID & "_SCENARIO_RULE AS E" & _
" ON E.RULE_ID = D.RULE_ID WHERE E.SCENARIO_ID = " & cmbBIScn & ";"
```

```
CurrentDb.QueryDefs("qry_BB_LOC_1").SQL = _
" SELECT DISTINCT qry_BAREA_RULE_VIEW.ACONSIST AS TERMINAL,
qry_BELT_IN_AREA_VIEW.INCLUDES FROM qry_BAREA_RULE_VIEW " & _
"qry_BELT_IN_AREA_VIEW WHERE qry_BAREA_RULE_VIEW.AINCLUDES =
qry_BELT_IN_AREA_VIEW.CONSIST;"
```
