Hi Joanne,

I think you want to use the solution in ACC2000: How to Create Page Totals on a Report <http://support.microsoft.com/default.aspx?scid=kb:en-us:216311>

I hope this helps! If you have additional questions on this topic, please respond back to this posting.

Regards,

Eric Butts

"Microsoft Security Announcement: Have you installed the patch for Microsoft Security Bulletin MS03-026? If not Microsoft strongly advises you to review the information at the following link regarding Microsoft Security Bulletin MS03-026

<http://www.microsoft.com/security/security_bulletins/ms03-026.asp> and/or to visit Windows Update at <<http://windowsupdate.microsoft.com/>> to install the patch. Running the SCAN program from the Windows Update site will help to insure you are current with all security patches, not just MS03-026."

| I want to sum a field in a group footer but I want the
| total to appear at the bottom of the page not at the
| bottom of the data. The detail could go over 2 pages.
| This is a report printing a bunch of invoices and I am
| grouping on customer. This has to be possible!

| Thanks!
