I've been tied up with the construction of our new house. We're moving in 3 -4 weeks and realistically will not have time to modify ReportToPDF until after the move.

Mr. Lebens...your ReportToPDF control has worked wonders for us. I was curious to know if you were able to update it to include the capability of combining multiple PDFs into one file. I asked this question back in May and your response indicated that you were going to try to get to it at the end of July. I wasn't able to find an update on your website and was hoping that I just missed it. If your plans changed, can you offer a suggestion on another control that might work? Thanks.
