Hello there,

I have noticed that my configurations are always changed whenever I would log on to my office PC. The view of icons in the control panel are always changed without me changing them. The speed of my computer slows down, when these are observed.

I am certain that while I am at work with my PC, my files and folders are viewed via internet. Because when I click on the view tab, it would reveal that "as web page" is clicked. That is, my files are viewed as web page. I always unclick this, but every time I would click the view again it would reveal the same.

Also, there is an IE Windows Icon in the task bar of my windows explore, HOW CAN I REMOVE THIS? HOW CAN I SECURE MY FOLDERS AND FILES FROM OUR OWN MIS STAFF WHO DWELLS ON THE EMPLOYEES FILES. I ALSO WOULD LIKE TO SECURE MY EMAILS THAT I AM ALSO CERTAIN ARE BEING VIEWED BY OUR OWN MIS STAFF.

MANY THANKS FOR YOUR KIND ATTENTION.  
HOPING TO HEAR YOUR IMMEDIATE RESPONSE.

BEST REgards,  
Jhunne
