I need to add 5 CALs to a SBS2000 server with 25 CALs installed. I know I have to buy SBS2003 CALs and downgrade them. But the question is: where I can buy/find the floppy diskette?
Microsoft Italy says me to ask to my reseller (Esprinet) but it seems to be exhausted!
Is there any other way to install some CALs (bought off course) ?

Thanks

.
