Okay if you need via a spoon

First I went here

<http://www.microsoft.com/learning/mcp/certifications.asp>

followed that link to here

<http://www.microsoft.com/learning/mcp/mcse/default.asp>

that led here

<http://www.microsoft.com/learning/mcp/mcse/windows2003/mcsa.asp>

Which gives you all the information a person could ever want to know on which courses of study to follow and test to take.

Now that I'm done feeding you, would you like me to wipe your mouth and burp you also?
