I've got two words to answer that question:

Boot Camp.

Are you sure you are an MCSD? If you are, why do you ask such a stupid question like this when you should be the one giving out answers to such questions. How did you become an MCSD? With your level, you need to know what's up.

Wake up!

Hi guess,

What exams do i need to take to become mcpd. I am already mcsd.net.

I know I need two exams in order to upgrade to mcpd. (Exam 70-553) and (Exam 70-554)

but how come i can't find any books with the above title.

do i need to buy mcts books. for example

Re: mcsd to mcpd

(Exam 70–553) do i need these book?

MCTS Self–Paced Training Kit (Exam 70–526): Microsoft .Net Framework
2.0
Windows–Based Client Development
