I asked a question comparing the two . 2k has much more books to learn by ,
2k3 wont be obsolete as near soon . So 2k is easier to learn and pass , but
if you learn 2k3 then you will also know most of 2k . If you just want easy
, then 2k .

I wont pay the \$\$ for the tests for an op-system that will be obsolete soon
but thats my choice .
