did you hear "T-Bone" <reply2me@thenewsgroup> say in news:#E89eCL2EHA.3452@TK2MSFTNGP14.phx.gbl:

- > *The Infrastructure test's depiction of a firm's multisite*
- > *network built using a Windows server as the backbone IP router is*
- > *ludicrous, and asking people to design networks in an imaginary*
- > *universe in which Cisco Systems, Check Point Software Technologies,*
- > *and a host of other vendors don't exist is silly.*

oooo, I would really like to see some of this....
