Fire official: Man's cell phone apparently sets him ablaze
POSTED: 7:17 a.m. EST, January 16, 2007

VALLEJO, California (AP) -- A cell phone apparently ignited in a man's pocket and started a fire that burned his hotel room and caused severe burns over half his body, fire department officials said.

Like the exploding laptops.

Product idea: A cell phone case made from thermally insulated Kevlar!
