Hi Subrata,

There are 2 places that you can check. The first is the ConnectionTimeout property in the connection object. Since you have set the connection to 300, you can also check the CommandTimeout property of the SELECT command. Please also enlarge it to 300. Please check the following link for more information:

<http://msdn.microsoft.com/library/default.asp?url=/library/en-us/cpref/html/frlrfssystemdataoledbodbcommandclasscommandtimeouttopic.asp>
