Hi Doron,

This calling routine correct?

```
if((InputDataCur->ButtonFlags & MOUSE_HWHEEL) == MOUSE_HWHEEL)
{
//to do list:
}
```

I add this filter driver to the basic mouse class driver. I do not install any driver from the manufacture. I am sure that the Hardware does provide this tilt horizontal button.

Later i will try on microsoft mouse to investigate more on this.

Please advice.

.
