Hi

Can Vista use filter driver , any framework change ?

Does MSDN Library tell us much about filter driver ?

I have question about ComPort Inf section of msports.inf

```
[ComPort.NT.HW]
AddReg=ComPort.NT.HW.AddReg
```

```
[ComPort.NT.HW.AddReg]
HKR,, "UpperFilters", 0x00010000, "serenum"
```

What does Inf HW section use for, and where will it create registry key ?

Thank you .
