Hi Noel,

This appears to be a typical VC programming issue. You can post it to our Visual C++ newsgroup: microsoft.public.vc.language to get the most qualified pool of respondents, and so other community members who regularly read the newsgroups can either share their knowledge or learn from your interaction with us.

Thanks for using MSDN newsgroup and have a great day.

Sincerely,

WenJun Zhang

Microsoft Online Community Support

Get notification to my posts through email? Please refer to:
<http://msdn.microsoft.com/subscriptions/managednewsgroups/default.aspx#notifications>.

Note: The MSDN Managed Newsgroup support offering is for non-urgent issues where an initial response from the community or a Microsoft Support Engineer within 1 business day is acceptable. Please note that each follow up response may take approximately 2 business days as the support professional working with you may need further investigation to reach the most efficient resolution. The offering is not appropriate for situations that require urgent, real-time or phone-based interactions or complex project analysis and dump analysis issues. Issues of this nature are best handled working with a dedicated Microsoft Support Engineer by contacting Microsoft Customer Support Services (CSS) at:

<http://msdn.microsoft.com/subscriptions/support/default.aspx>.
