Hi Scott,

Thanks for posting. How do you register the control with the <% @ Register %> tag? Is there any incorrect path information in the tag?

Please have a check. Here are 2 kb articles that may be useful to you:

HOW TO: Deploy an ASP.NET Web Application Using Xcopy Deployment  
<http://support.microsoft.com/?id=326355>

HOW TO: Deploy an ASP.NET Web Application Using the Copy Project Feature in Visual Studio .NET  
<http://support.microsoft.com/?id=326356>

I hope this helps.

Regards,

Felix Wang
