I added a new user to my SQL db to log into the DB from my ASP.NET web, When i run my page I'm getting an error

Login failed for user 'USERID'. Reason: Not associated with a trusted SQL Server connection.

do i need to put trusted connection = true in my string?

heres my string

```
dbConnection = new  
sqlConnection("server=localhost;UID=USERID;pwd=password;database=issue")
```
