hello frnd,

in my project..my solution includes two webapplication projects.  
in webaplication1 i have created a user control...whn i m using that in webapplication2 webform...its showing error

**Parser Error**

Description: An error occurred during the parsing of a resource required to service this request. Please review the following specific parse error details and modify your source file appropriately.

Parser Error Message: The virtual path '/WebApplication2/WebUserControl2.ascx' maps to another application, which is not allowed.

**Source Error:**

```
Line 1: <% @ Page language="c#" Codebehind="WebForm1.aspx.cs" AutoEventWireup="false"
Inherits="WebApplication3.WebForm1" %>
Line 2: <% @ Register TagPrefix="uc1" TagName="WebUserControl2"
Src="~/WebApplication2/WebUserControl2.ascx" %>
Line 3: <!DOCTYPE HTML PUBLIC "-//W3C//DTD HTML 4.0 Transitional//EN" >
Line 4: <HTML>
```

so if any one cud help me...how to come out f it and how cud i use the control across the applications..

Regards
