Hi,

In my application, I use treeview inside a frame so when a tree node is clicked, it will direct to the main content only. I have set the selectednodeStyle with BackColor="Yellow", but when I selected the first node and then select another the back color is still yellow for the former one. The OnSelectedNodeChange event is never get fired. Below is my code excerpt:

In TreePane.aspx

```
<div>
<asp:TreeView ID="TreeView1" runat="server"
CollapseImageUrl="~/Images/treeMinus.gif"
ExpandImageUrl="~/Images/treePlus.gif" Font-Names="Arial"
Font-Size="8pt" ForeColor="Black"
OnSelectedNodeChanged="OnSelectedNodeChange">
<NodeStyle HorizontalPadding="10px" />
<SelectedNodeStyle BackColor="Yellow" />
<Nodes>
<asp:TreeNode ImageUrl="~/Images/test1.ico"
NavigateUrl="~/Management.aspx"
Target="maincontent" Text="Management" Value="1">
<asp:TreeNode NavigateUrl="~/Accounting.aspx"
Target="maincontent" Text="Accounting"
Value="3"></asp:TreeNode>
</asp:TreeNode>
<asp:TreeNode ImageUrl="~/Images/test2.ico"
NavigateUrl="~/Customer Services.aspx"
Target="maincontent" Text="Customer Services"
Value="2"></asp:TreeNode>
</Nodes>
</asp:TreeView>
</div>
```

On the default page.aspx:

```
<frameset frameborder="no" border="0" frameSpacing="0" frameborder="0"
```

ASP.NET 2.0 Treeview SelectedNodeStyle Problem

```
cols="220" MARGINWIDTH="0" MARGINHEIGHT="0" LEFTMARGIN="0"
TOPMARGIN="0">
<FRAMESET rows="30,*">
<FRAME id="toolbar" src="HeaderPane.aspx" name="toobar">
<FRAMESET MARGINWIDTH="0" MARGINHEIGHT="0" LEFTMARGIN="0"
TOPMARGIN="0">
<FRAMESET cols="200,*" framespacing="0" frameborder="yes"
MARGINWIDTH="0" MARGINHEIGHT="0" LEFTMARGIN="0" TOPMARGIN="0">
<FRAME id="leftmenu" src="TreePane.aspx" name="leftmenu">
<frame id="maincontent" name="rightcontent" src="test1.aspx"
name="rightcontent">
</FRAMESET>
</FRAMESET>
</FRAMESET>
</frameset>
```

I would appreciate if anyone can help me with this problem.

Thanks in advance,

Sunny
