I think i'm still doing somehing wrong: because i have still the same error:

Instead this line

```
myvariable= odescr.descrlimit(myvariable)
```

you have to call Application object.

```
myvariable= Application("odescr")
```

Please check this article

Using Session and Application Objects in ASP .NET

<http://msdn.microsoft.com/msdnmag/issues/01/11/cutting/>

<http://msdn.microsoft.com/msdnmag/issues/01/12/cutting/>

Hope it helps
