Hi,

You can try to use the  
Microsoft.WindowsMobile.PocketOutlook.SmsMessage in order use  
OpenNETCF.Phone to send SMS.

Hey!!  
Hope u can help me! I've got a big problem using OpenNETCF.Phone.

```
private void Senden_Click(object sender, EventArgs e)
{
    SmsAddress sa = new SmsAddress("+436803041981");
    OpenNETCF.Phone.Sms.Sms d = new OpenNETCF.Phone.Sms.Sms();
    d.SendMessage(sa, firstKenn);
}
```

Now this works perfectly on Window Mobile 2003... But on using Windows  
Mobile 05 i get the error: "Error sending message"!

Hope u can help me, i've got no idea...  
THANK YOU
