Hi all,

Originally, I posted this post in [microsoft.public.dotnet.languages.csharp](mailto:microsoft.public.dotnet.languages.csharp). I was offered to try get answer here.

I am writing my app in C#.

I have button which its flatstyle is popup. The problem is that it has border when user doesn't move the mouse on the button. How can I remove the border that only when the user moves the mouse cursor on that button, it sets border so it looks like 3d?

The problem is that the popup button doesn't look popup in its current graphic.

Thanks,  
Eran.
