Nerd,

I live in the Rijnvalley, therefore I remember me always this "Rijndael" keyword to come on almost every encryption page on MSDN.

<http://msdn2.microsoft.com/en-us/library/system.security.cryptography rijndael.aspx>I hope this helps, Cor "Nerd" <balacr@xxxxxxxx> schreef in berichtnews:1148448205.867380.129160@xx If I write a method using dotnet's cryptography libraries and use it for encryption in my application. How can other applications decrypt these messages. The other applications will be developed in some other languages also. >> Thanks in advance for the help >
