Hi All,

I'm new to the .NET newsgroups. I have a question about XAML Page scrollbar.
Which newsgroup handles this type of questions?

Anyways, I have a XAML page and it doesn't scroll. I want to turn on the
scrollbars. I can't seem to find out how. Any suggestions?

Thanks,
Mario

```
<Page x:Class="XAMLBrowserDemo1.Page1"
xmlns="http://schemas.microsoft.com/winfx/2006/xaml/presentation
xmlns:x="http://schemas.microsoft.com/winfx/2006/xaml
Title="Page1" Background="Black" HorizontalAlignment="Center"
Width="1600"
ScrollViewer.CanContentScroll="True" >
```

```
<Page.Resources>...
```

```
<StackPanel Width="700">...
```

```
</Page>
```

.
