Hello SharpCoderMP,

FileSystemWatcher doesn't work with CD and DVD drivers

S> i have a problem with the FileSystemWatcher:

S> i want the watcher to monitor my cd drive. but when i try to set the

S> FileSystemWatcher.Path property to "e:\" (which is my drive) and

S> there

S> is no cd inside i get an exception.

S> So my question is – how can i monitor my cd-rom drive for disc

S> changes?
