Hi,

It seems fine to me , what problems are you getting?

Hi

i am trying to upload a txt file thru this code, but its not updating the data. is this code fine.

Or can anybody please suggest me some other meathod to do the same. its urgent please help

regards
shantanu

```
WebClient client = new WebClient();
client.Credentials = netCred;
client.Headers.Add("Content-Type","application/x-www-form-urlencoded");
client.UploadFile("http://aww.ngn.bel.alcatel.be/prp/cgi-bin/secure/ImportForm.cgi","POST",@"C:\PRP\PRPTemp.txt");- Hide quoted text -
```

Re: Upload a text file thru webclient

hi thanx for the reply

i am really confused it is giving no error

can there be any possibility of access rights

the link has GUI with a file upload option ans a import button.

regards

shantanu
