Would I need to use PInvoke to port the Unmanaged C++ example into a .net language?

Hi Scott,

Based on my research, here is a sample on codeproject for your referecne.
Using the Windows 2000/XP Object Selection Dialog
<http://www.thecodeproject.com/w2k/BfObjectSelection2.asp>

We have unmanaged C++ Document about using the dialog, but we did not provide an official dotnet Wrap.
Directory Object Picker
