hello,

probably quite simple, but, i have a pivot table, very, very long, but very thin, obviously this prints out on about 10 pages as a very long table.

is there any way i can just repeat the columns and stick it on one page?

i.e its like this

fruit no.  
apple 2  
apple 1  
apple 3  
apple 4  
apple 2  
apple 1  
apple 3  
apple 2  
apple 4  
apple 1  
apple 2  
apple 3  
apple 4  
etc.

and i'd like it to look like this

fruit no. fruit no. fruit no. fruit no.  
apple 1 apple 2 apple 4 apple 3  
apple 3 etc.

hope you get the message and i think this is the longest problem posed so far.

ta
