I don't see anything wrong. They look like "normal weight (thin)" borders to me.

| I'm sure this should be easy but...

| I'm trying to add a normal weight (thin) border to the right edge of cells
| in column E. After adding via Border tabpage on Format\Cells, File\Print
| Preview shows they are being treated as thick/heavy lines.

| Is there a setting I'm missing?

| Step-by-step would be appreciated.

| Thanks!

| Dale
