-

one additional function I need. In the first question I spoke about a status column. And every time I would change the status, the date and time had to be written down in column 2 and 3.

One problem occur. Its not just one column but ranges in one column.

for example

A1:A10
A20:A30
A40:A50

when I change the value of cell A11, no date or time may me filled in in column 2 and 3.

greetz, david
