Hi Tonio,

Perhaps look at the thread as there is nothing on my site that relates to this. The terms absolute and relative hyperlinks were new to me although I use these forms in HTML all the time, never in Excel. So you will have to read the newsgroup references. Here is the Google Groups reference that will get you to the entire thread starting with where Bill described better what he was looking for.

<http://google.com/groups?threadm=C8FAB338-A820-433F-A633-2A73EA21A78F@microsoft.com>

HTH,

David McRitchie, Microsoft MVP - Excel [site changed Nov. 2001]
