Steve

Font doesn't have an alignment property.

You can End With after the 2 alignment lines and then start another With statement for the Font or just amend as follows.

```
Private Sub AAA1_Click()
```

```
If Range("A1") = 1 Then
Range("A1").Select
With Selection
.HorizontalAlignment = xlCenter
.VerticalAlignment = xlCenter
.Font.ColorIndex = 3
.Font.FontStyle = "Bold"
End With
With Selection.Interior
.ColorIndex = 1
.Pattern = xlSolid
.PatternColorIndex = xlAutomatic
End With
Else
Range("A1").Select
With Selection.Interior
.ColorIndex = 29
.Pattern = xlSolid
.PatternColorIndex = xlAutomatic
End With
End If
End Sub
```
