Hi FSC,

I've tried this :

```
Sub diab()
```

```
Application.OnKey "^{v}", ""
```

```
Application.CommandBars.FindControl(ID:=22).Enabled = False
```

```
End Sub
```

Rgds,

Halim

FCS menuliskan:

How can I restrict the "Paste" functionality in Excel to prevent the user from pasting cell formats when copying and pasting? (i.e. only allowing pasting values and/or formulas)

I am using Excel 2003
