I have two columns: Col1: A and Col2: C, some values may be Col1: C and Col2: A or some other ones may be Col1: A and Col2: A. Values range from A to F. What I want to display is: if Col2 is less than Col1 display "Dropped", if col2 is greater than col1 display "Improved", if col1 and col2 are the same display "No change". Your assistance is greatly appreciated. Jerry
