Select the 1x5 array of column labels and name it items

Select the 3x5 array of x's and name it arrayX

Insert > Name > Define > arrayB

Refers to: =IF(arrayX="x",items,"")

Select the three cells in column B and enter this array formula

with Ctrl+Shift+Enter

=CONCATENATE(INDEX(arrayB,,1),INDEX(arrayB,,2),INDEX(arrayB,,3),
INDEX(arrayB,,4),INDEX(arrayB,,5))

.
