One way:

```
=IF(A2<30,"",IF(A2<35,"green",IF(A2<=45,"yellow","red")))
```

In article <EB67FD5E-2E8D-4BEA-A7AE-62EDBA57C24C@xxxxxxxxxxxxxxxx>, MS Questionnaress <MSQuestionnaress@xxxxxxxxxxxxxxxxxxxxxxxxxxxxxxxx> wrote:

Ex. A2 is a bunch of numbers that have been conditionally formatted to show up as green if between 30 and 34, yellow if between 35 and 45 and red if 46 and over.

However, I need B2 to display the word 'green', 'yellow' or 'red' depending on the number range in A2.

Intuitively? Easy. In reality? I'm completely stumped :-P

Help?
