-

Download one workbook "indianspellnoformula" (scroll to 5) from below webpage, which has formula to convert numbers to words as per Indian System. No VBA codes required.

<http://in.geocities.com/shahshaileshs/misc.htm>

For English system download "spellnoformula" (scroll to 4) to convert numbers to words. You can change the currency name to suit.

Regards,

Shailesh Shah
