hey guys

hows it going? I need your help once again....i have an excel file with loads of data

ie.

A ...G H I J

K L

1 10465 Jason Brad Mike Jeff  
Heather Lebron

2 1076 Keith Jay Fred David  
Young Pat

and it goes all the way down to A4056.....however on a seperate sheet I need this information copied like this

SHEET 2

A B

1 10465 Jason  
Brad  
Mike  
Jeff  
Heather  
Lebron

2 1076 Keith  
Jay  
Fred  
David  
Young  
Pat

once again, it goes all the way down to A4056. is there a way either thru macro or thru formula for me to do this instead of copying and pasting special? help will be much appreciated; please and thank you.

help urgent

hope you follow what I was trying to get at.....
