SCL is a MAPI property, not added to the header.

You can save archived messages with a header if you enable archiving in Global Settings.

<http://www.microsoft.com/technet/prodtechnol/exchange/guides/IMFDeploy/350c3035-d29f-4f7d-8491-c9eaa164f1>

You can also display SCL in Outlook and OWA

Outlook.

<http://blogs.technet.com/exchange/archive/2004/05/26/142607.aspx>

or in OWA

<http://blogs.technet.com/exchange/archive/2004/05/27/143297.aspx>

Hi there,

I've installed IMF on our Exchange server, but I didn't see IMF adds anything in email header, (IMF does work, archives some emails and moves some email into junk folder). I mean, add SCL score in it. Could anybody tell me how to add SCL score in the header or give me a copy of an email header with SCL score?

Thank you very much.

Ray
