The Security tab shows you who has certain permissions on the mailbox. Send As is one of those available permissions. Click Add to add the desired user, then in the Name list select that user, then in the Permissions list, in the Allow column, check Send As.

I click security and it looks like another group membership type window.

if you can step me through this im obviously missing where you are trying to get me to!

ed

Are you looking at the Security tab for the mailbox you want to modify? Send As is right there on the Permissions list on the Security tab, between Reset Password and Read Phone and Mail Options on my DC.

Re: outlook and sending a message from anothe person's mailbox

sue,
i had the advance view checked, i have a security tab but i dont see
anythi
about mailbox permissions to grant send as

ed

Sounds like you need to choose View | Advanced Features in ADU&C to
turn
on
the Security tab.

sue,
can you please tell me again where do find this?
i couldnt find the send as that you specified

thanks,

ed

Yes, in ADU&C, use the Security tab on the mailbox's
Properties dialog to
grant Send As permission.

is it possible
to give access to one user to be able to send
mail from another mailbox
without it saying "sent on behalf of.."

thanks,
ed
