>Outside person sent email from Yahoo, gets the following  
>message:

>

>=====

>Remote host said(this is my server): 552 Requested Mail  
>Action aborted: exceeded storage allocation

>

>The original message is over 5k. Message truncated to 1k.

>

>=====

>

>The mailbox has no size limit, attachment limit is not a  
>problem either. Not sure why it says this and fails to  
>deliver to my server. To test, I tried the following:

>

>1. Emailed this email from my yahoo to hotmail, no

>problems.

>2. Emailed this same email from yahoo to work and gets

>error above.

>3. Forwarded from hotmail (the email I forwarded from  
>yahoo) to my work still same problem.

>4. Forwarded from hotmail the same email but this time  
>deleted all contents and still same problem.

>5. I can compose my own emails, add attachments from  
both

>yahoo and hotmail with no problems.

>

>Seems to be with this one message. Anyone seen this,  
>should I be concerned messages are not being delivered  
>from yahoo?? I checked event viewers and saw nothing.
