I have like 10 or more incoming emails stuck in the smtpvs current session.  
and they all coming from 2 sources.

sdm1.quickbooks.net

sdm2.quickbooks.net

sdm3.quickbooks.net

and

simmmts6-srv.nellnexxia.net

Howcome these emails cannot come through?

We need to get these emails through and I tried everything I can think of.

Need help of gurus out there please.
