I tried it but it seems that it didn't work. Here is the error code:

Event Type: Warning

Event Source: W3SVC

Event Category: None

Event ID: 100

Date: 4/20/2004

Time: 11:56:54 AM

User: N/A

Computer: OWAServer

Description:

The server was unable to logon the Windows NT account 'accountname' due to the following error: Logon failure: the user has not been granted the requested logon type at this computer. The data is the error code.
