Hi,

Start by looking in the event viewer to get some information as to what is happening.

hi everbody
I have etither win2k3 ent. or ex2003 ent.
when I have opened the system this morning!
1:exchange pop3 service doesnt run and I couldnt in the service manager
2:exchange virtual directory(modify action)disabled(rihgt click)doesnt
select action
what kind couldnt problems?

have a nice day
best regards!
