Thanks for the information. I did find the tab in AD Users and Computers after I typed my post. The boss doesn't have any limits anymore.

Sounds like I may need to upgrade to Enterprise Edition. Is Exchange 2000 Ent. Edition still available for purchase? Does anybody know if that requires upgrading my Exchange CAL's? I know that if I go to Exchange 2003 then I have to upgrade all my CAL's as well, so we've been avoiding that option.

Please advise,
Tom
