Dear All,

Part of my sheduled backup is a backup of Exchange 2003 's storage group (along with system state and hard drives).

Below I enclose a part of backup log when it goes to checking (sorry, it is in Polish).

What I do not like is that it is indicated "Files: 0" ("Pliki: 0")

Number of bytes seems to be OK.

On event log I see the event of type error with code 8009

Does it all mean that something goes wrong with my exchange backup?

---

Sprawdzanie "SERVER\Microsoft Information Store\First Storage Group"

Zestaw kopii zapasowych #4 na noŹniku #1

Opis kopii zapasowych: "Zestaw utworzony 2004-06-22 o 11:44"

Sprawdzanie poprawnoŹci rozpoczêto 2005-08-10 o 05:20.

Folder SERVER\Microsoft Information Store\First Storage Group\Mailbox Store (SERVER)

Folder SERVER\Microsoft Information Store\First Storage Group\Public Folder Store (SERVER)

Folder SERVER\Microsoft Information Store\First Storage Group\Pliki dziennika

Sprawdzanie poprawnoŹci zakończono 2005-08-10 o 05:39.

Katalogi: 4

Pliki: 0

RóŹnice siê: 0

Bajtów: 4 106 920 750

Czas: 18 min i 49 s
