Hi, erveryone:

I've installed exchange server 2003 evaluation version successfully in windows server 2003 evaluation version. then I encountered two problems:

the first is:

the services IMAP4, NNTP, POP3 cannot start. but services http and smtp started successful. the following is the error even logs in system even logs.

Logon Failure on database "First Storage Group\Mailbox Store (SERVER)" -
Windows 2000 account MYDOMAIN\Administrator; mailbox /o=SERVER/ou=First
Administrative Group/cn=Configuration/cn=Connections/cn=SERVER-LME-GWISE.
Error: 1010

Logon Failure on database "First Storage Group\Mailbox Store (SERVER)" -
Windows 2000 account MYDOMAIN\Administrator; mailbox /o=SERVER/ou=First
Administrative Group/cn=Configuration/cn=Connections/cn=SERVER-LME-NOTES.
Error: 1010

the second :

I can not add user or change user's password under Active Directory. The reason is the password was enter are not meet the policy of Activ Directory . As show in the bmp file in the attachment jpg file.

How can I resolve this two problems? Please kind to tell me.

Thanks a lot.
