If mysound.wav is included in exe, then you can't copy it to disk with the same name even if you included full path. Both Copy file and Strtofile will fail. But you may copy it with different name. So I suggest you to include file "mysound.wa\_" into exe and then

```
strtofile(filetostr("mysound.wa_"),"tempdir\mysound.wav")
```

will do the work
