I ment Easythumbs instead of EZtwain.

regards

I've succesfully used Gdpicturepro  
which is easy to use with foxpro samples and free distribution.

and EZTwain (shareware) with batch processing possibilities

regards  
christophe

Hi  
I have an application which needs to change contrast,brightness,  
orientation, crop like option and run unver VFP6 . anybody have any  
idea?. It is very very urgent for me.. please help. I used Gripicture  
but it it doen't meet my reauirement

thanks in advance
